## THE EXCEPTIONAL POTENTIAL OF SHARED DECISION MAKING

**Glyn Elwyn BA MD MSc PhD FRCGP** is a clinician, researcher, and innovator. He is a tenured professor at **The Dartmouth Institute for Health Policy and Clinical Practice**, USA, and at the Scientific Institute for Quality of Healthcare, Radboud University Nijmegen Medical Centre, Netherlands.

He has a Visiting Professor position at University College London, UK.

After reading the humanities he qualified in medicine, completed a Masters in Education, and obtained his doctorate in 2001 at the Radboud University Nijmegen Medical Centre, Netherlands, with Professor Richard Grol.

**Glyn Elwyn** studies coproduction, shared decision making, and the application of machine learning to digital recordings of clinical encounters.

He leads an international interdisciplinary team examining the implementation of shared decision making into clinical settings. He developed **Option Grid™** patient decision aids, evidence-based tools that empower people to choose the care that suits them best.

He has developed the following measures: Observer **OPTION** and **collaboRATE**, measures of shared decision making, **integrATE** (care integration); **considerATE** (care for those with serious illness). He is the editor of **Shared Decision Making: Evidence-Based Patient Choice**, Oxford University Press, 3rd edition, 2016.
